

SUJITH BATTU

Portfolio | [linkedin.com/in/battu-sujith](https://www.linkedin.com/in/battu-sujith) | battusujith2525@gmail.com | Boulder, Colorado, USA

PROFESSIONAL SUMMARY

Strategic Data Analyst having strong background in analyzing large datasets and building end to end data pipelines to help businesses make decisions along with proven ability to translate data into clear visualizations that helps optimize processes and easily understand performance.

EDUCATION

Master of Science in Data Science | University of Colorado Boulder | 3.75 / 4.00 **August 2024 – May 2026**

Bachelor's in Software Engineering | Delhi Technological University | 3.70 / 4.00 **August 2020 – June 2024**

PROFESSIONAL EXPERIENCE

Data Analyst Intern - Marketing **May 2025 – August 2025**
DMEConnected Atlanta, USA

- Evaluated 10,000+ patient search requests by synthesizing EHR records using Python, Pandas, and SQL, identifying high-demand medical products and increasing sales by 40%.
- Unified marketing and sales metrics using LinkedIn Sales Navigator, Apollo, and HubSpot, improving lead identification efficiency by 25%.
- Constructed automated scraping pipelines to monitor competitor pricing and launch 5 new products.
- Designed interactive PowerBI dashboards and performed geographic mapping using GA4, lifting conversion rates by 18%.

AI Researcher - Image processing **August 2023 – May 2024**
Delhi Technological University New Delhi, India

- Processed and examined 5,000+ MRI medical images using Python, OpenCV, and NumPy for monkeypox detection, achieving 97% accuracy with research published in Scopus-indexed IEEE conferences.
- Executed preprocessing, feature extraction, and deep learning model assessment, reducing false negatives by 15%.

PROJECTS

Smart Travel Planning Application using AI - Big Data **January 2026 – April 2026**

- Engineered a scalable full-stack travel platform utilizing Next.js, React, and Tailwind CSS for the frontend, powered by a high-performance Python FastAPI backend and PostgreSQL database.
- Incorporated diverse external APIs to aggregate real-time metrics for flights, hotels, weather, and attractions, featuring an AI chatbot to generate personalized itineraries and reducing planning time by 40%.
- Architected and deployed cloud infrastructure on Google Cloud Platform (Cloud Run, Cloud SQL) using Terraform, while establishing automated CI/CD pipelines via Cloud Build and robust E2E testing with Selenium.

Capstone: Registration Analytics Dashboard (Asan-te) **August 2025 – November 2025**

- Rebuilt a legacy analytics workflow with UUID-based tracking, pinpointing onboarding friction points to increase completion rates by 22%.
- Streamlined CSV reporting pipelines and formulated KPI dashboards, cutting manual reporting by 35%.

Crop Recommendation System - Machine Learning **January 2025 – April 2025**

- Trained ML models predicting optimal crops utilizing soil nutrients and climate parameters, with 98% accuracy.
- Spearheaded GIS-ready architecture for spatial crop suitability mapping and precision agriculture evaluation.

TECHNICAL SKILLS

Programming Languages: Python, SQL, R, JavaScript

Data Analysis & ML: Excel, Pandas, NumPy, Scikit-learn, PySpark, Matplotlib, Seaborn

Big Data & Cloud: AWS (EC2, S3, Cognito), Google Cloud Storage, Redis, Elasticsearch, Kafka, Docker

Tools & Visualizations: Power BI, Tableau, GA4 Analytics, Git, Jira, ArcGIS

CERTIFICATES

GIS Specialisation UC Davis - ESRI

April 2026
